

TUSHAR SHARMA

Jaipur, Rajasthan, India — tushar.professional29@gmail.com — linkedin.com/in/tusharsharma

SUMMARY

Third-year Computer Science student with hands-on experience in cloud computing, AI/ML, and data analytics. Proficient in C++ and Python with 5+ Google Cloud certifications. Passionate about building scalable solutions and leveraging AI technologies to solve complex problems.

EDUCATION

Bachelor of Technology in Computer Science and Engineering
JECRC University, Jaipur, Rajasthan

July 2023 – July 2027
Expected Graduation: 2027

TECHNICAL SKILLS

Programming Languages: C++, Python

Cloud Technologies: Google Cloud Platform (GCP), Vertex AI, Cloud Networking, Cloud Infrastructure

AI/ML: Machine Learning, Generative AI, Prompt Engineering, Data Analytics

Core Competencies: Data Structures, Algorithms, Cloud Security, Network Architecture, Software Development

PROJECTS

Machine Learning Data Pipeline on Google Cloud

[Oct 2023]

- Designed and implemented end-to-end ML pipeline using GCP services for data processing and model deployment
- Leveraged Big Query for data warehousing and Vertex AI for model training, achieving 30% improvement in processing time
- Automated data workflows using Cloud Functions and Cloud Composer for scalable analytics

Secure Cloud Network Infrastructure

[May 2024]

- Architected secure multi-tier network infrastructure on GCP with VPC, firewall rules, and IAM policies
- Implemented network security best practices including Cloud Armor and Cloud NAT for enhanced protection
- Reduced potential security vulnerabilities by 35% through systematic security auditing and implementation

Gen AI – Powered Data Analytics Application

[Feb 2026]

- Developed intelligent data analytics solution using Generative AI and Vertex AI for automated insights generation
- Created custom prompts for LLMs to extract meaningful patterns from large datasets
- Built Python-based dashboard integrating AI-generated insights with real-time data visualization

CERTIFICATIONS

- Google Cloud Computing Foundations: Data, ML, and AI in Google Cloud
- Google Cloud Computing Foundations: Infrastructure in Google Cloud
- Build a Secure Google Cloud Network
- Prompt Design in Vertex AI
- Tata – Gen AI Powered Data Analytics Job Simulation

ACHIEVEMENTS & ACTIVITIES

- Completed 5 professional certifications in Google Cloud Platform and AI/ML technologies
- Active contributor to open-source projects on GitHub with focus on cloud and ML solutions • Participated in Smart India Hackathon
